## About Rigsrevisionen

We support the Danish parliament in holding government to account by examining whether laws and policies made by the parliament are implemented. We are particularly concerned with areas where public money is not spent wisely, or politically agreed measures or services are not provided as intended.

Rigsrevisionen holds a unique position in the Danish society. Our mandate gives us unrestricted access to all the information and data we need across the public sector.

Rigsrevisionen's approx. 300 employees are dedicated to ensuring that public funds are administered efficiently, effectively and with economy.

Rigsrevisionen is headed by an Auditor General whose responsibilities and tasks are governed by the Auditor General Act.
